THE HEART OF THE HOME
THE LOUVRETEC OUTDOOR ROOM

Elevate your space with a Louvretec Outdoor Room.

In modern architecture today everything has a flow to the outside...

Which is wonderful, however the outside is always changing and isn't always that hospitable.

A Louvretec Room genuinely gives you options to make the most out of whatever is going on outside all year round.

Roofs and walls can be opened, closed, retracted...

Walls can be Glass, Mesh, Louvres in many configurations - all of which can slide or raise should you so wish.

Lighting and Heating can be added - all operable from a single hand held wireless remote controller.

Let Louvretec show you how to transform your outdoor deck space in to a year round usable room.
There are five basic steps for a Louvretec Outdoor Room.

1. DECK

DECK - You will need a deck.
Most Louvretec Dealers don't do decks (so make sure you check this first with your local Louvretec Dealer) - this is the only part of the five steps not undertaken by Louvretec. You may have an existing deck, or the deck may be part of your new home build.

2. STRUCTURAL LOUVRETEC FRAME

STRUCTURAL FRAME
Louvretec offers a fully engineered structural aluminium frame system, specifically designed for Outdoor Rooms.

3. ROOF OPTIONS
