

SUN LOUVRES MAXI-DRIVE PIVOT SYSTEM  
**MOTORISED PANEL**  
**300MM MAXI LOUVRE**

## 300MM MAXI LOUVRE

Elliptical shape

The 300mm Maxi Louvre is available in a motorised option using Louvretec's Maxi-Drive Pivot System.

This pivot system hides both the motor and pivot mechanism within a structural aluminium support frame.

Powered by Somfy, Maxi-Drive incorporates both a reduction gearbox and supporting drive arm, providing strength needed for pivoting large blade louvres. Ideal for both residential and commercial applications.

The 300mm Maxi Louvre is also available End Fixed or Bracket fixed, horizontal or vertical.

Please note, our RL300 and RL450 Louvres are also compatible with the Maxi Drive system. Please contact your local Louvretec Dealer for more information. We are focused on meeting your needs with tailored solutions.
